

CIVIL ENGINEERING TECHNOLOGIST

Bosch Stemele, a level 2 BBBEE certified company and a member of the multi-disciplinary Bosch Holdings, founded in 1961, has an opportunity for a Civil Engineering Technician. This position will be based in the Cape Town Regional Office and reporting directly to the Regional Manager.

Key responsibilities will include:

- Achieve project engineering and project management standards to meet or exceed industry best practice norms.
- Perform delegated project development, design, construction management and construction monitoring functions, or support function, as required.
- Support the Regional Divisional / Project Manager and the project team.
- Meet critical project deadlines during the design/construction phase.
- Ensure compliance with Bosch Stemele's ISO9001/2008 QMS system, in terms of the specific responsibilities in order to fully comply with internal and external QMS audits.

The Candidate should:

- Have a B. Tech or BSc Civil Engineering.
- Be registered as a Professional Engineer/ Technologist
- Have 5-8 years' experience in general municipal services design (roads will be an advantage)
- Be proficient in AutoCAD and MS Office packages.
- Be capable of functioning independently.
- Be self-driven with a capacity for continuous self-improvement.
- Have a driver's license and own transport.
- Have the ability to multi-task.

Applications, together with details of contactable references and supporting documents should be forwarded to:

Zameka Cain
